Note 1. Summary of Significant Accounting Policies

As provided by Louisiana Revised Statute 38:1758, the Drainage District is governed by five commissioners. These five commissioners are referred to as the Board of Commissioners and are appointed by the parish police jury. The Drainage District was created under the authority of Louisiana Revised Statutes 38:1751-1802 and was established for the purpose of draining and reclaiming the undrained or partially drained marsh, swamp, and overflowed lands in the district that must be leveed and pumped in order to be drained and reclaimed.

In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities and transactions of state and local governmental entities. All GASB pronouncements are recognized as generally accepted accounting principles for state and local governments. The accompanying financial statements have been prepared in accordance with such principles.

Reporting entity:

In conformance with GASB Codification Section 2100, the Drainage District is a component unit of the Acadia Parish Police Jury, the governing body of the Parish and the governmental body with oversight responsibility. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the Police Jury, the general governmental services provided by that governmental unit, and other governmental units that comprise the governmental reporting entity.

Fund accounting:

The District uses a fund (general fund) to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

General fund:

The general fund is classified as a governmental fund. Governmental funds account for the District's general activities, including the collection and disbursement of specific or legally restricted monies. The general fund is the general operating fund of the District and accounts for all financial resources.

NOTES TO FINANCIAL STATEMENTS  
See Accountant's Compilation Report

General fixed assets and general long-term debt:

Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the general fixed assets account group, rather than in governmental funds. Public domain or infrastructures are not capitalized. No depreciation has been provided on general fixed assets. All fixed assets are valued at historical cost.

Long-term liabilities expected to be financed from governmental funds are accounted for in the general long-term account group, not in the governmental funds.

The two account groups are not funds. They are concerned only with the measurement of financial position and do not involve measurement of results of operations.

Basis of accounting:

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The District's accounts are reported on the modified accrual basis of accounting using the following practices in recording revenues and expenditures:

Revenues:

Ad valorem taxes and state revenue sharing are recorded in the year the taxes are assessed. Ad valorem taxes are assessed on a calendar year basis, become due on November 15 of each year and become delinquent by December 31. The taxes are generally collected in December of the current year and January and February of the ensuing year.

Expenditures:

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

Budget practices:

The budgeted revenue and expenditures are based on current figures and past experience. They are discussed, approved, adopted and amended as necessary by the Board of Commissioners at the regular monthly meetings. The budget is prepared on a basis consistent with generally accepted accounting principles. All appropriations lapse at year-end. The District does not use encumbrance accounting.

NOTES TO FINANCIAL STATEMENTS  
See Accountant's Compilation Report

Cash and cash equivalents:

For reporting purposes, the District considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

At December 31, 2000, the District has cash (book balances) totaling \$17,473 which is all in interest-bearing demand deposits. These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. At December 31, 2000, the District has \$18,275 in deposits (collective bank balances). These deposits are fully secured from risk by federal deposit insurance.

Pensions:

Employees of the Drainage District are covered under the Federal Insurance Contribution Act (social security). The employees and the District contribute equally to the system.

Vacation and sick leave:

The District does not have a formal policy on vacation and sick leave.

Reporting:

To be consistent with current year classifications, some items from the previous year have been reclassified.

Total column:

The total column on the combined balance sheet is captioned "Memorandum Only" to indicate that it is presented only to facilitate financial analysis. Data in this column does not present financial position or results of operations in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.
